#### Section V. Non-Conforming Uses.

##### a. Continuation of Non-Conforming Uses.

Any lawful building or use of buildings or premises or any part thereof in existence before the adoption of this by-law may be continued although such building or use does not conform to the regulations covering the district in which it is located.

##### b. Alterations of Non-Conforming Buildings.

A building of legal non-conforming use may be enlarged or altered provided the Board of Adjustment has ruled that such enlargement or alteration will not increase any detrimental or injurious effect of the building or its use on the neighborhood.

##### c. Change of Use.

The use of any building for any other non-conforming use other than that for which it was used when this by-law was adopted is not permitted. Any building of non-conforming use that has not been occupied for one year shall revert to the zoning restrictions of the district in which it is located. Any non-conforming building suffering casualty by fire, water, windstorm, flood or other catastrophe may be restored and used for the same non-conforming occupancy provided that any debris and rubbish resulting from the casualty is cleaned up and the restoration started within a period of six months from the date of the casualty and that the restoration is completed within two years from the date of the casualty.

## Section VII. Administration and enforcement.

a. This By-Law to Establish Zoning Rules and Regulations shall be administered by the Board of Adjustment.

b. Upon receipt of a complaint in writing by any person aggrieved, or upon its own motion, the Board of Adjustment shall promptly investigate any violation of any of the provisions of this by-law, and if a violation appears to exist the Board of Adjustment shall promptly report the same to the Board of Selectmen and the Board of Adjustment and the Board of Selectmen shall take appropriate legal action to restrain and correct the act or thing which is in violation of this by-law.

c. A violation of any of the provisions of this by-law shall be punishable by a fine of not exceeding ten dollars (\$10.00) per day for each day such violation continues.

d. If any section, clause, provision, phrase or portion of this by-law is held to be invalid or unconstitutional by any court or other competent authority, such holding shall not affect, impair or invalidate any other section, clause, provision, phrase or portion of this by-law.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

To the School Board of New Castle:

I herewith submit to you my twenty-third report as superintendent of your schools. The statistical report for the past completed school year will be included and also the pupil enrollment in our local school as well as a list of tuition pupils attending Portsmouth for the current year.

The current year began on Wednesday, September 3, 1952, with an enrollment of 54. This compares with last year's figure of 51 and the preceding year of 44. The total enrollment of New Castle pupils attending the Portsmouth schools is now 35.

The children of New Castle are now enjoying the benefits of a new and modern building. A visit to the school, I am sure, will be a source of satisfaction to the people of the town. The lighting, heating and ventilation afford a feeling of comfort to the pupils who work there. All facilities of the building are conveniently located for ease of administration. With the completion of the grounds, we will have as attractive a school as can be found. The vision of the architect, contractor and building committee has resulted in a plant which is the envy of many a visiting committee. I would like to congratulate the people of New Castle upon this project.

Foresight is proven by the inclusion of a third room in the plan. As soon as practicable this room should be finished for use as a classroom. By doing this, our six grades could be divided into groups of two grades each. While the present enrollment is not excessively large, the fact that each teacher must direct the work of three grades compels added work on the part of the teacher and correspondingly less time for individual and extra assistance. The number of schools with three grades for each teacher is lessening year by year.

The school nurses, both Mrs. White when she was with us last year and Mrs. Kennedy during the current year, have been careful guardians of the health of our children. They have given of their time far more than the call of duty. I am sure the parents recognize this fact and feel that their children are well cared for.

During the year 1951-52, New Castle School District received \$2,060.95 from the federal government. This was granted for assistance in educating the children of employees at the Portsmouth Naval Base. Although application was made under the same law this year, legal interpretation declared the aid is to be granted only for schools in the state where the federal activity is located. This ruled out New

Hampshire schools except in cases where the parents live on the base. Our representatives and senators in Washington are to introduce a bill in the house to correct this injustice. If this bill shall become a law, New Castle will again be entitled to this aid. At the present time we are not so entitled.

The film strip library, voted at the past meeting of Supervisory Union 21, has been purchased and is now in use.

These films are not entertainment features but are strictly teaching helps. They show in pictures the subjects being taught in the work of the school. The fundamental processes of Arithmetic are illustrated. Lesons in elementary Science, Geography, and Reading are presented to the children in attractive, colored pictures. The teachers are unanimous in their enthusiasm for this latest aid in teaching effectively. The seven boards of the Union voted to extend this library by the addition of new films during the current year.

The Parent-Teacher Association is as always a recognized organization of parents and friends interested in the welfare of the schools. By its active support, it has been a valued aid in implementing the work of the school. As a means of interpreting the needs of the schools to the public, it is valuable.

It is always a pleasure to visit New Castle. The atmosphere of the school is that of a friendly workshop. The children are purposefully busy. The results obtained can only be for the good of the children who live and work there.

For the helpful plans and suggestions of the Board, I am grateful.

Respectfully submitted,

ROY W. GILLMORE,  
Superintendent of Schools.

## REPORT OF THE SCHOOL NURSE

(From Sept., 1952 to Feb. 1, 1953)

---

The annual school examinations were conducted in October by Dr. David Straus, school physician, assisted by the school nurse.

For the first time this examination included a urinalysis of each child.

The following defects were noted and reported to parents:

Nutrition	3
Orthopedic	7
Teeth (Temporary)	11
(Permanent)	2
Tonsils	1
Glands	2
Heart	2

Visits are made to the school every two weeks and health talks are given the pupils. The nurse discusses with the teachers any health problems that may have arisen. The school nurse may be called by telephone at any time. She also examines any child who has been absent from school over three days. In case the absence has been due to a communicable disease, a doctor's certificate must be obtained before the child may return to school.

Hearing and vision tests will be made during the coming months.

Respectfully submitted,

CAROL B. KENNEDY, R. N.
